

# Do you wear dentures?

## Would you like to participate in denture research studies and make some extra cash?

### What is involved?

- Oral Health Research Institute is looking for participants to be part of a panel who will test denture products such as adhesives and cleansers.
- You will be paid \$25 to attend a screening visit to see if you might qualify for participation in future denture adhesive studies.

### Who can be in the screening study?

- Generally healthy adults at least 18 years old
- have upper dentures with a fair fit
- be available up to 10-13 hours on study days (5:45 am to 7:00 pm)
- be able to remain on site during each training study day-smoking not permitted
