SCHOOL OF DENTISTRY

I am pleased to present for your review, abstracts of the periodontal literature for the years 2006-2007. These articles were selected from the major dental journals. The abstracts were prepared by the periodontics graduate students at the Indiana University School of Dentistry. The graduate students whose names are listed below contributed to the hundreds of hours of preparation time represented by this volume. The articles were collected and edited by Dr. Seok-Jin Kim, Clinical Assistant Professor. We should all express our gratitude to him for a job well done. In addition, Dr. Kim and I are very grateful to Judy Doyle, for her expertise in organizing and helping with the final formatting of the articles. Please let Judy know that you appreciate all her efforts in this regard. Last but not the least, our thanks goes out to all the residents who contributed to this volume of abstracts. Our specialty gets stronger every year through our residents.

Sincerely,

A handwritten signature in black ink, appearing to read "Vanchit John".
